

REMARKS

The Examiner is respectfully requested to enter the foregoing amendment prior to examination of the above-identified patent application.

Applicant notes that the instant amendment has been prepared to revise the specification and claims in order to place them in closer conformance with U.S. patent practice. Further, Applicant notes that the scope of the claims has not been narrowed for any reasons related to a basis of patentability, and, therefore, that no estoppel should attach.

It is noted that the addition of paragraphs [0016]-[0021] does not constitute new matter as it simply incorporates into the specification the subject matter of the revised claims. While a fee is not believed to be required, please charge any fee shortage to Deposit Account 50-2929.

Should there be any questions, the Examiner is invited to contact the undersigned at the below listed number.

Respectfully submitted,
Tivadar FÖLDI
